REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-4 are allowable because the prior art fails to teach or suggest a front stage circuit periodically generating a pair of non-complementary control signals including a first control signal and a second control signal having different maximum voltage levels in response to a first input clock signal and a second input clock signal complementary to the first input clock signal.

Claims 5-7 are allowable because the prior art fails to teach the detail to the front stage as claimed.

Claims 8-10 are allowable because the prior art fails to teach the combination of the front stage circuit, switch circuit, and the detail of the driving circuit as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
